The new standard for portable MP3 players

Freecom introduces the second generation of their Mini CD/MP3 player: the Beatman-II. Improved anti-shock, longer battery life, and keeping all the advantages of the Beatman concept: instead of using expensive flash-memory, the Beatman uses affordable Mini CD-Rs. You can easily store 3 full-length Audio CDs in MP3 format on one Mini CD-R disc. The Beatman fits into your pocket: take your favourite music with you, wherever you go!
